

COUNSELOR RESPONSIBILITIES AT THE POOL AREA

GENERAL SWIM

A counselor from each bunk should please:

- Pick up their clipboard from the office before instructional swim.
- Make sure all campers go to the **BATHROOM** and shower before being checked into pool area.
- Assist campers with their shoes, towels, Tshirts, etc. while they are showering. Campers must bring all their gear into the pool area after showering.
- Have campers line up alphabetically by last name, ready for a WSI to check them in.
- Escort campers to towel area, then into appropriate lines for General Swim.
- **STAND** in their designated area. This will be posted outside the gate weekly.
- Help with general supervision before, during, and after the general swim. (It is especially important to assist in maintaining silence during buddy calls and check out times)
- Know the # of campers in their area of responsibility at all times. (The WSI supervising each pool shall periodically check to make certain all counselors in their pool area have the correct count.) **It is the responsibility of each WSI to inform ALL counselors of the number of campers checking into or out of their pool!**

After General, the **Unit Leader** should take **ROLL CALL** and escort the bunk to the departure gate. (Bunks 1A, 1B, 2, 6B, 7 will exit at the gate by pool I and Bunks 3, 4, 5, 8, 10 will exit at the gate by pool III.)

A WSI will take a head count at the gate before dismissing any bunk from the pool area.

A counselor from each bunk must return the bunk list to the office.

Thank you for your continued professional cooperation!
